This week marks the end of sprint 3

Add shipments page, view shipments page, select shipment to edit.

Added authentication requirement to shipments

Work on the UI elements was done on the advanced search page. This included fixing a sizing issue where the page buttons would not scale down with the page. This was a particularly important problem because we anticipate our application getting heavy use on phones. The stuck "in or out of butterfly wing" button was also resolved.

A lot of work on the shipments tables as gotten done, but has not quite gotten finished and merged into master. As part of this task, the shipment pages added to

A lot of work

A lot of work done on notes page. Difficulties with submitting data back to web application.
