

EE 491 WEEKLY REPORT 7**Date:** 3/29/15 - 4/5/15**Group number:** DEC1608**Project title:** Reiman Garden Butterfly Interpretation Application**Client:** Nathan Brockman -- Curator, Christina Reiman Butterfly Wing**Advisor:** Dr. Rover**Weekly Summary (Short summary about what you did this week)**

This week, we took another look at our Project Plan and made some revisions to the document. Nothing significant really changed, but some of the wording was revised to make things clearer and added some images, screenshots, and diagrams.

We had a meeting as a team on wednesday. We had expected to meet with the UBR 4 team (the other Reiman Gardens team). However, do to a miscommunication, we were unable to.

We used our time on Wednesday to examine the existing database record we had been given. We have decided that we might keep the database more or less as is. We do still need to port it from a Microsoft SQL backup to a mySql database.

Past week accomplishments (please describe as what was done, by whom, when)

- Project Plan Version 2
- Updated Presentation

Plan for coming week

- Meet with the UBR 4 team
- Continue to refine Presentation
- Present to the Class

Individual contributions
