

EE 491 WEEKLY REPORT 2

Date: 1/26/15 - 2/2/26

Group number: DEC1608

Project title: Reiman Garden Butterfly Interpretation Application

Client &/Advisor: Dr. Rover

Weekly Summary (Short summary about what you did this week)

This week, our team had its first meeting with our adviser, Dr. Rover. In the meeting, we introduced ourselves and gave a little background about ourselves. We talked a little about organization for the upcoming year, and Dr. Rover also suggested a goal of a working prototype done by the end of the semester. Dr. Rover also gave us a few problems projects have had in the past, so that we could look out, and avoid them.

We also met with our client, Nathan Brockman of Reiman Gardens. Nathan gave us a tour of the gardens, showed the current butterfly app, and gave a bit of background on its development, its goals and its shortcomings. He then outlined what he would like to see in the new app as well as some fun features to potentially add if time allows. He emphasized that Reimen Gardens already has all of the content for the app, and that we don't need to worry about any content related issues. Nathan also said that we are free to use any platform we like for the development of this project

Finally we had an informal meeting on Thursday afternoon to summarize what we had learned from the prior two meetings. This meeting was done on rather short notice, and so only a three members of our team could attend. At this meeting, we went over the goals Nathan had for the project, and establish what we considered to be the core functionality.

Past week accomplishments (please describe as what was done, by whom, when)

- Meetings With Client and Adviser
- Established an idea of what is considered core functionality

Pending issues (if applicable)

None so far

Plan for coming week (please describe as what, who, when)

- Sketches of Screen layouts for the coare pages in the app (Everyone, by Tuesday)
- Talk to our adviser about what we still need to get started (Everyone, Wednesday)
- Talk to our adviser about what aspect of the project to get started on

Individual contributions

<u>NAME</u>	<u>Role</u>	<u>Individual Contributions</u>	<u>Hours this week</u>	<u>HOURS cumulative</u>
