

EE 491 WEEKLY REPORT 3**Date:** 2/2/15 - 2/9/15**Group number:** DEC1608**Project title:** Reiman Garden Butterfly Interpretation Application**Client &/Advisor:** Dr. Rover**Weekly Summary (Short summary about what you did this week)**

This week, our group examined the screen sketches that each of our members did individually and discussed the aspects of each we liked. We decided to focus primarily on the tablet/kiosk layout now and adapt that to a mobile version latter. We have decided to create higher quality screen sketches out of these early drafts and show them to Reiman Gardens staff for comments.

We had a meeting with our adviser, Dr. Rover, to discuss the best way to proceed. Her advice was to start generating a lists of tasks to be done, and start a group task board. Once a list of tasks has been generated, the tasks can be prioritized. Some of these tasks could potentially include early prototyping and exploring different technology options.

She also suggested we consider talking with the team of the UBR app (a second Senior design project sponsored by Reiman Gardens), and ask them about what platforms/resources they found useful for their project and any other advice they can offer.

Past week accomplishments (please describe as what was done, by whom, when)

- Meetings With and Adviser
- Screen Sketches and future plans

Pending issues (if applicable)

None so far

Plan for coming week (please describe as what, who, when)

- Start generating tasks to be done
- Setup group task board
- Specifications for iteration one (HW 1)
- Move Weekly reports to the website

Individual contributions

<u>NAME</u>	<u>Role</u>	<u>Individual Contributions</u>	<u>Hours this week</u>	<u>HOURS cumulative</u>
