

**EE 491 WEEKLY REPORT 2****Date:** 2/9/15 - 2/16/15**Group number:** DEC1608**Project title:** Reiman Garden Butterfly Interpretation Application**Client &/Advisor:** Dr. Rover**Weekly Summary (Short summary about what you did this week)**

This our major accomplishment was in finishing homework one. Although it has not been assigned yet, we have also a good start on our project plan (Due to misreading the homework one assignment).

Our group also set up a time to meet with Nathan Brockman (our client). We are planning to run some screen designs past him. We are also planning to ask about getting access to or copies of the last database. Our group is wondering if we could potentially reuse the past schema. Nathan has also told us he has some information from the past attempt at this project he would like to share as well.

Our goals this week include continuing to explore and experiment with the technology we are potentially going to use. We are also putting more effort into researching what programming environment would be best suited for the server side of our web app.

**Past week accomplishments (please describe as what was done, by whom, when)**

- Finished Homework 1
- Started work on the project web site
- Started trello board

**Plan for coming week**

- Meet with Nathan
  - Show screen design and ask for comment
  - Get database information
  - Get design plans from past project
- Research server side programming environment

## Individual contributions

<u>NAME</u>	<u>Role</u>	<u>Individual Contributions</u>	<u>Hours this week</u>	<u>HOURS cumulative</u>
Scott Mueller	Key Concept Holder		2.5	12.5
Carson Noble	Web Master	Screen sketches & researched server-side web development	5	14.5
Megan Reiman	Key Concept Holder	Scanned copy of spreadsheet from client, started researching database tool	2.5	12.75
Michael Bonpua	Team Leader		2.5	11.5
Nicholas Riesen	Communications Lead	Refined and submitted hw1, Week 4 report, experimented with jsp.	3.25	12.5
