

**EE 491 WEEKLY REPORT 5****Date:** 2/16/15 - 2/23/15**Group number:** DEC1608**Project title:** Reiman Garden Butterfly Interpretation Application**Client &/Advisor:** Dr. Rover**Weekly Summary (Short summary about what you did this week)**

This week, we had a meeting with Nathan (our client) to show off the sketches of the UI for the app. We also outlined what our plan was moving forward with him. He in turn provided us with documentation he had on the previous app's goals and plans. He also suggested a few places to look if we were in need of inspiration, such as Shedd Aquarium's interactive displays.

We then worked on getting our project plan V1 complete. As part of this, we came up with a project outline including the goals for the next three sprints. Ideally, by the end of the third sprint we will have a working version of the visitor end for beta testing over the summer.

For the first sprint, we will each be taking one of the visitor web pages and working towards completing that. At the end of the sprint, the pages will be compared, and styles and themes will be made consistent across all of the pages.

**Past week accomplishments (please describe as what was done, by whom, when)**

- Project plan version 1
- Email Summaries for Dr. Rover
- Back End Environment Research

**Plan for coming week**

- Start work on first sprint (everyone takes a web page)

**Individual contributions**

<b><u>NAME</u></b>	<b><u>Role</u></b>	<b><u>Individual Contributions</u></b>	<b><u>Hours this week</u></b>	<b><u>HOURS cumulative</u></b>
Scott Mueller	Key Concept Holder	Back End Environment Research	4	12.5
Carson Noble	Web Master	Project plan work	3	17.5
Megan Reiman	Key Concept Holder	project plan work, documentation	4.5	17.25
Michael Bonpua	Team Leader	Emails, project plan work	3	11.5
Nicholas Riesen	Communications Lead	work on project plan	3	15.5
