

EE 491 WEEKLY REPORT 7**Date:** 3/1/15 - 3/8/15**Group number:** DEC1608**Project title:** Reiman Garden Butterfly Interpretation Application**Client:** Nathan Brockman -- Curator, Christina Reiman Butterfly Wing**Advisor:** Dr. Rover**Weekly Summary (Short summary about what you did this week)**

This week we had a meeting with our adviser. During our meeting we showed off the pages that have been put together so far. She gave us some guidance on where to go to get feedback on our designs. She also pointed us towards making our webpages as accessible as possible.

Our adviser also very strongly recommends that we meet with the other Reiman Gardens senior design team (UBR) and talk with them about their development process and their techniques for using trello as a jobs board.

During the weekend, we also made substantial progress on the first version of the design document. This was due to a misunderstanding, but leaves us in a good position for the upcoming week.

Finally, this was the second week of our first sprint, so we continued making progress on the web pages we are each assigned.

Past week accomplishments (please describe as what was done, by whom, when)

- First draft of Design Document
